WHY YOU SHOULD WEBCAST

Webcasts are a great marketing tools for engaging your audiences and advertising with a direct impact on the brand, product or services that you transmit.

Possibilities include presentations, product launches, interviews, workshops and much more. Use local talent or incorporate International speakers into your communications and take advantage of broadcast quality graphics, PowerPoints, Q&A, polling to allow meaningful engagement with your audience.

Go Live with your event or pre-record your content to distribute on your destination of choice. A solution for one-off events or creating a series of broadcasts that continuously promotes your brand and engages your audience throughout the year.

BENEFITS OF LIVE VIRTUAL EVENTS

An all-in-one platform to broadcast, publish, record, and manage high definition live video streams.
Huge cost savings on event execution thanks to the ability to broadcast a single event across geographies.
Increased reach as you connect with audiences across the world via laptops, desktops and mobile devices.
Increased participation with the reduction of event hosting costs.
Highly scalable streaming solutions
No barriers on the distribution of content across the globe.

HOW IT WORKS...

PRE-PRODUCTION

- Join our professional crew in a safe and comfortable Studio
- Evaluate broadcast needs and create a show rundown with the help of our producers
- Rehearsals for live or pre-recorded content.

PRODUCTION

- Producer and Talent prep for the show.
- Audio, visual, and network checks confirmed.
- Live Stream countdown begins.
- The show goes LIVE or Cameras roll for pre-recorded content.
- LiNK production crew operates the system remotely and adds graphic titles, remote guests and additional content into the show.

POST

- Wrap of show!
- Live Stream ends and camera stop recording.
- Live content is archived to the client's website or social channel.
- Pre-recorded content is copied onsite for the client and 2nd backup delivered to the editor
- Editor trims and finalizes content for delivery to client

OTHER SERVICES

Demo Video

Showcase how your product works

Brand Videos

Use videos for the Advertisement Campaign

Event Videos

Produce a highlight reel or release interesting interviews and presentations from the conference, round table discussion, fundraiser, or other types of events

Expert Interviews

Capturing interviews with internal experts or thought leaders in your industry is a great way to build trust and authority with your target audience

Educational or How-To Videos

Teach your audience something new or build the foundational knowledge they'll need to better understand your business and solutions.

Timelapse Videos

Captures key milestones of projects, bring them to life in a short form video, allowing all stakeholders to celebrate the successes of their project and reflect on a job well done.

Explainer Videos

Produce a highlight reel or release interesting interviews and presentations from the conference, round table discussion, fundraiser, or other types of events.

Live Videos

Draws longer streams and higher engagement rates by giving your viewers a special, behind-the-scenes look at your company

YOUR TEAM

Reach your audience in real time with innovative live-streaming solutions. Broadcast your event live, enhance your brand and engage with new fans, followers and business partners.

We like to keep things simple, flexible and fun - and so does our clients.
